nz potters inc

obj. to promote excellence in ceramics and develop a strong community of people who are connected through clay

origin.
founded 1968, developed from the need to represent a group of like minded potters & ceramic artists

be a part of our community because...

conventions

This biannual event is always entertaining and informative. The conference gives members an opportunity to meet others around the country working with clay. It is held in a different region each year ensuring no two conferences are the same. An array of invited overseas speakers and demonstrators keeps people in touch with what is happening abroad.

website www.nzpotters.com

This first class resource includes a calendar of up coming events nationwide and contains a wealth of information. It provides an exceptional opportunity for members to have their own web page profiling their work. A great advantage, as this site is often the first stop for curators and gallery owners looking for new work. Members can also access information on international opportunities for conferences, exhibitions and residencies.

claynews

This publication just keeps on getting better. A selection of what has featured in recent editions are articles on ceramic education, technical processes, historical recollections, overseas conferences and residencies.

A review of Claynews is a current priority project. We hope to upgrade this newsletter to an inspiring and informative contemporary magazine.

exhibitions

As a member of NZ Potters you are able to participate in our prestigious national exhibitions. This is a great opportunity to have your work viewed by collectors, art enthusiasts, the general public and your peers. NZ Potters also sponsors local exhibitions providing awards of excellence for selected exhibition pieces.

other benefits of membership...

- eligible for an annual scholarship offering generous assistance to attend an international conference
- the opportunity to be profiled in an annual calendar
- links to other craft groups and organisations
- belong to a national organization able to lobby at local & national level on behalf of the ceramics community
- a comprehensive resource pack for clubs from 2010
- reduced fees for our annual or bi-annual conferences
- visits arranged by NZSP of international ceramicists
- the knowledge & collegiality which flows from a strong community of members of any national organisation.
